

(xv) Particulars of facilities available to users for obtaining information, including the working hours of the library:

The NIUA library is a specialised library mainly on urban development and urban related subjects. It has a collection of more than 15,500 books, research studies, Census publications and Government reports. In addition, there are more than 1,400 bound volumes of periodicals available in the library. Fifty national and international journals are received through subscription/ exchange/ gratis. Thirteen dailies and six magazines are also being subscribed to by the library.

The library brings out two publications: 'URBAN NEWS', a monthly publication that presents an overall picture of urbanisation and related topics, based on a reproduction of clippings from thirteen leading dailies and six magazines received by the library; 'URBAN FILE', a bi-annual publication, is an index of articles published in various national and international journals received by the library. The library is in the process of computerizing its holdings through the use of NETTLIB/ VIDYUT version #3 software.

The library has an open access system for its users. It provides inter-library loan facilities and, reference and bibliographic services to the users.

The Library is open from 9.00 a.m. to 5.30 p.m. on all working days. It remains closed on Saturdays, Sundays and on all Government holidays.
